

**REMARKS**

Claims 1 and 4-17 have been amended. No new claims have been added. No claims have been canceled. Claims 1-17 are pending.

The specification stands objected to allegedly due to grammar and spelling errors. The Office Action specifically cites page 2, line 15 and page 8, line 11. The specification has been examined at the cited locations, however, no grammar or spelling errors have been identified. On these lines the word processor has reduced the width of the space characters separating several of the words in order to justify the paragraph. However, it is respectfully submitted that the spaces between words is sufficient to permit the application to be properly printed as a U.S. patent when the application is allowed. Accordingly, the objection to the specification should be withdrawn.

Claims 1-17 stand rejected under 35 U.S.C. 112, second paragraph, as being indefinite. Claims 1 and 4-17 have been amended. Each pending claims is believed to meet the requirements of 35 U.S.C. 112, second paragraph. Accordingly, the rejection to claims 1-17 under 35 U.S.C. 112, second paragraph, should be withdrawn.

In view of the above amendment, applicant believes the pending application is in condition for allowance.
